1.0 SECTION A: PROVIDER AIMS, CORPORATE OBJECTIVES & CARE PHILOSOPHY

CQC PORTAL QUESTION A1: WHAT ARE THE AIMS AND OBJECTIVES OF YOUR SERVICE?

ADOV Care Group Limited is established to deliver high-quality, person-centred Personal Care to adults (aged 18–64) diagnosed with autism spectrum conditions, severe learning disabilities, and associated complex sensory needs living within supported accommodation at 78 and 80 Marston Gardens, Luton. Our primary objective is to empower individuals to live dignified, self-determined lives in a safe, domestic community setting, fundamentally avoiding institutional hospital or residential care home placements in accordance with the NHS Transforming Care agenda and CQC's guidance 'Right support, right care, right culture'. We achieve this by providing consistent, highly trained support staff utilizing Positive Behaviour Support (PBS) frameworks, active support methodologies, and bespoke communication passports.

CQC PORTAL QUESTION A2: HOW WILL YOU ENSURE PEOPLE RECEIVE PERSON-CENTRED CARE?

Person-centred care is operationalised through four core mechanisms: (1) Detailed Pre-Admission Assessment: Every resident co-produces a comprehensive support plan with their multi-disciplinary team, family, and speech/language specialists before moving in; (2) Communication Passports: Individuals with non-verbal autism are provided with tailored communication aids (PECS, Makaton, tablet-based software) ensuring their voice guides daily routines; (3) Positive Risk-Taking: Staff facilitate personal autonomy (e.g. meal preparation, independent shopping, community sports) supported by dynamic risk assessments; and (4) Dedicated Keyworking: Each tenant is paired with a primary keyworker who conducts monthly person-centred reviews and ensures care plans adapt dynamically to evolving goals.

2.0 SECTION B: SAFEGUARDING, SAFETY & INCIDENT GOVERNANCE

CQC PORTAL QUESTION B1: HOW WILL YOU PROTECT SERVICE USERS FROM ABUSE AND IMPROPER TREATMENT?

ADOV Care Group maintains an uncompromising zero-tolerance approach to abuse and neglect: (1) Vetting: 100% of staff undergo Enhanced DBS vetting with Adult Barred List clearance, five-year employment history verification, and two professional references prior to commencing duties; (2) Mandatory Training: All staff complete Safeguarding Adults Level 2/3 and Mental Capacity Act training within 14 days of induction; (3) Multi-Agency Alignment: The service operates in direct partnership with the Luton Safeguarding Adults Board (LSAB), escalating Section 42 alerts within 24 hours of any concern; (4) Independent Whistleblowing: Staff have access to a confidential whistleblowing helpline directly to the Nominated Individual and CQC; and (5) Non-Restrictive Culture: Physical restraints are strictly prohibited; staff are trained exclusively in BILD-accredited low-arousal de-escalation techniques under Positive Behaviour Support principles.

3.0 SECTION C: QUALITY ASSURANCE & REGULATION 17 GOVERNANCE SCHEDULE

To satisfy Regulation 17 (Good Governance), ADOV Care Group operates a multi-tiered auditing and monitoring schedule, ensuring continuous quality improvement, proactive risk mitigation, and complete transparency.

Table 7.1: Regulation 17 Internal Governance Auditing Schedule

Audit Category	Responsible Lead	Audit Frequency	Statutory Scope & Verification	Escalation & Board Reporting
Medication MAR Audit	Registered Manager	Weekly	Stock count, controlled drugs register, MAR signing accuracy, omitted doses	Immediate GP/111 escalation; Board KPI report
