Self-contained building block

1.0 PHYSICAL SITE TOPOLOGY & ARCHITECTURAL MOATS

78 and 80 Marston Gardens form an integrated semi-detached residential block situated at the head of a tranquil residential cul-de-sac off Old Bedford Road in Luton. The physical configuration provides four decisive architectural moats: (1) Physical Insulation: As a conjoined semi-detached pair with flanking driveways, the care campus shares no party walls with unrelated private neighbors, completely insulating adjacent residents from acoustic disturbance; (2) Exceptional Parking Capacity: The site features two wide private driveways accommodating 8 off-street vehicles plus two lockable brick garages, permanently satisfying Luton Local Plan Policy LLP32; (3) 100-Foot Private Rear Gardens: Providing expansive, tranquil outdoor spaces for sensory gardens and outdoor recreation; and (4) Proximity to Executive Base: 82 Marston Gardens provides an on-site executive home for the Director, enabling 30-second emergency oversight while maintaining complete domestic separation.

Table 9.1: Physical Property Specifications, Capacity & Amenity Schedule

Property Asset	Current Use	Proposed Use Class	Bed Capacity	Sanitary Facilities	Driveway & Outdoor Space
78 Marston Gardens	6-Bed Dwellinghouse	Class C3(b) Supported Living	5 Beds	1 en-suite wetroom, 1 large communal wetroom, 1 ground WC	4-car right driveway, 1 garage, 100ft rear garden
80 Marston Gardens	4-Bed Dwellinghouse	Class C3(b) Supported Living	3 Beds	1 ground-floor wetroom, 1 separate cloakroom WC	4-car left driveway, 1 garage, 100ft rear garden
82 Marston Gardens	4-Bed Dwellinghouse	Class C3 Dwelling (AST)	Family Home	Family bathroom, en-suite, ground-floor cloakroom	Private driveway, secluded private family garden

2.0 ROOM-BY-ROOM ARCHITECTURAL SPECIFICATIONS & SANITARY LAYOUT

All eight resident bedrooms significantly exceed the national minimum standards for supported living (10.0m²) and CQC guidance (12.0m²), providing expansive space for bespoke sensory zoning, specialist posture beds, and workstations.

Table 9.2: Detailed Room-by-Room Architectural & Spatial Analysis

Building & Room	Floor Level	Floor Area (m²)	Window Aspect	Acoustic Rating (Part E)	Sanitary Provision
No. 78 — Bedroom 1	Ground Floor	14.2 m²	South-facing bay	Soundbloc 48dB	Private en-suite wetroom
No. 78 — Bedroom 2	First Floor (Front)	15.0 m²	South-facing	Soundbloc 48dB	Private en-suite wetroom (new)
No. 78 — Bedroom 3	First Floor (Rear)	13.8 m²	North-facing garden	Soundbloc 46dB	Communal wetroom access
No. 78 — Bedroom 4	First Floor (Rear)	12.5 m²	North-facing garden	Soundbloc 46dB	Communal wetroom access
No. 78 — Bedroom 5	First Floor (Side)	12.8 m²	East-facing driveway	Soundbloc 46dB	Communal wetroom access
No. 80 — Bedroom 1	Ground Floor	15.5 m²	South-facing bay	Soundbloc 48dB	Ground-floor wetroom access
No. 80 — Bedroom 2	First Floor (Rear)	16.0 m²	North-facing garden	Soundbloc 48dB	Communal wetroom access
No. 80 — Bedroom 3	First Floor (Front)	14.5 m²	South-facing	Soundbloc 48dB	Communal wetroom access

3.0 THE WET ROOM CAPEX BREAKTHROUGH & CAPITAL EFFICIENCY

HOW EXISTING WET ROOMS SAVED £42,000 IN UPFRONT REFURBISHMENT CAPITAL

Initial standard feasibility benchmarks assumed both properties would require full gutting, strip-out, and commercial en-suite installations in every bedroom, budgeting £110,400. Physical inspection established that both 78 and 80 already possess high-grade, fully tanked accessible wet rooms with non-slip Altro flooring, level-access drains, and separate ground-floor cloakroom WCs. Number 78 additionally possesses a luxury en-suite in Bedroom 1. Under CQC Supported Living national guidance, accessible communal wet rooms at a 1:3 ratio are fully compliant. By adding just one en-suite to Bedroom 2 in No. 78 and installing TMV3 valves throughout, total refurbishment CapEx is slashed to just £68,400, accelerating payback to under 2.5 months.

4.0 TURNKEY REFURBISHMENT WORK PACKAGES & BUDGET SCHEDULE

The £68,400 refurbishment program is divided into six discrete work packages tendered to pre-vetted local Bedfordshire contractors.

Table 9.3: Turnkey Refurbishment CapEx Schedule (£68,400 Total)

Work Package	Detailed Scope & Technical Specification	Statutory Standard	Budget Allocation	Execution Timeline
WP-01: Part E Acoustics	Resilient bars, Soundbloc 15mm plasterboard, 100mm acoustic mineral wool	Building Regs Approved Doc E	**£16,500.00**	Weeks 3–5
WP-02: En-suite Addition	Install luxury en-suite wetroom to Bed 2 (No. 78) with TMV3 anti-scald shower	Water Supply Fittings Regs 1999	**£12,000.00**	Weeks 4–6
WP-03: Fire Safety BS 5839	Category L1 addressable alarm, optical/heat sensors, FD30S fire doors	Regulatory Reform (Fire Safety) Order	**£14,800.00**	Weeks 2–4
WP-04: Sensory Environments	Low-arousal sensory lighting, durable anti-ligature decor, soft furnishings	CQC Single Assessment Safe Environment	**£11,500.00**	Weeks 5–7

Table 9.3: Turnkey Refurbishment CapEx Schedule (£68,400 Total) (Continued)

Work Package	Detailed Scope & Technical Specification	Statutory Standard	Budget Allocation	Execution Timeline
WP-05: Access & Safety	Low-gradient threshold ramps, DDA grab rails, secure key-pad door entry	Building Regs Approved Doc M	**£5,600.00**	Weeks 6–7
WP-06: Contingency Buffer	Unforeseen plumbing, electrical rewiring, or structural contingencies	Executive Board Prudential Reserve	**£8,000.00**	Ongoing
TOTAL TURNKEY CAPEX	Complete turnkey commissioning and statutory compliance budget	Fully signed off by Building Control	**£68,400.00**	Weeks 1–8
